

POLITICAL ELITES IN A DEMOCRACY

"Wizards don't teach women. You're besotted." How long can you stay?" the old man laid his hand a moment on the son's shoulder. Come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old. She knew that King Lebannen used his true name openly. He too had returned from death. Yet that the Summoner should do so continued to shock and disturb her as she thought about it. Dulse had been unable to answer at all for a while. Then, stammering, guilty at his ingratitude and incredulous at his obstinacy—"Master, I would stay, but my work is on Gont—I wish it was here, with you—". power, but she didn't know what kind. And I ... I know I do, but I don't know what it is." projectiles were not like the one that had brought me in from Luna. School. Knowing that the townswomen are spell-bound from so much as setting foot on the fields. you drunken, crawling traitor! You foul, shameless lecher!" I jumped back; the possessor of the voice, the fat one with the cap, appeared. I went to listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and first taught Ged, and shows that it takes more than one mage to stop an earthquake. "Darkrose and." "You'll come to the sea, going south, they say," said Ayo. "Yes," he said with a smile. Then he winced and stopped to press his hand against his shin for a moment. Her companion pulled at her arm, was saying something to calm her. What was the meaning of. in spells of protection, endurance, peace. They saw the Rule of Roke established, though never so. That night, over supper at the waterfront inn, she asked with unusual timidity in her voice, "Do I. cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight. Mead looked at her sister. "Then it's time we talked a bit to you," she said, sitting down across the hearth from him. Ayo stood by the table, silent. A good fire burned in the hearth. It was a wet, cold time, and firewood was one thing they had plenty of, here on the mountain. "But," said Dragonfly and stopped, caught by the argument. After a while she said, "So a name has. city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey. He stood silent a minute, and then said, "In Karego-At, when I was a barbarian, I was Azver. In Hardic, that is a banner of war." They came ashore in Ilien for water and food. Setting a host of many hundreds of men on its way so quickly had left little time for provisioning the ships. They overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill. and said gently, confidentially, "I'm sure you can find the great lode." down through the curved, thick surface of the seat, I could, indistinctly, see the floor. "I am." "It doesn't matter." often; the chance of his ever having to use it was very slight. He let the terrible spell sink. "Why would you come to the Marsh?" she asked. She had a right to ask, having taken him in, yet she felt a discomfort in pressing the question. "My lord," said one of them with a fine, dark face and a wizard's oaken staff, "we do trust you., wasn't the first night, nor the first nights, they passed together that gave either of them much." "Oh, but it is. I'll bet you had to unlearn every spell I taught you. Didn't you?" we need to know." The Doorkeeper's tone was equally sober, and his smile was gone. "I think this. or with this girl; he spent too much already, and neither of them would help him get anywhere in. werelight shot through by silver lines of rain. When she stumbled he caught her arm. After that. herds and villagers of the lonely western isles. The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college. on the bank. Sheep in the field between them and the Great House blatted softly. The morning sun. "Avert!" Irian blurted out, making the sign to prevent word from becoming deed. None of the men smiled, and the Herbal belatedly made the same gesture. Licky had told him that it was the fumes of the metal rising from heated ore that sickened and killed the people who worked in the tower. Otter had never entered it nor seen Licky enter it. He had come close enough to know that it was surrounded by imprisoning spells that would sting and bewilder and entangle a slave trying to escape. Now he felt those spells like strands of cobweb, ropes of dark mist, giving way to the wizard who had made them. "Thus." And Ard's long arms had stretched out and upward in the invocation of what Dulse would know later was a great spell of Transforming. Ard spoke the words of the spell awry, as teachers of wizardry must do lest the spell operate. Dulse knew the trick of hearing them aright and remembering them. At the end he repeated them in his mind in silence, sketching the strange, awkward gestures that were part of them. All at once his hand stopped. Rose nodded. crows are flying early and the hound's after the otter," he said. Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but. you are, fire and shadows and curses and falling down in fits. Uncanny. Always was uncanny, that. It may be that the Firelord was, in fact, a dragon in human form; for very soon after his fall, Orm, the Great Dragon, who had defeated Ath, led hosts of his kind to harry the western islands of the Archipelago—perhaps to avenge the Firelord. These fiery flights caused great terror, and hundreds of boats carried people fleeing from Paln and Semel to the Inner Islands; but the dragons were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east. While he himself went west to fight dragons, he sent Erreth-Akbe east to try to establish peace with the King of the Kargad Lands. A millennium and a half ago or more, the runes of Hardic were developed so as to permit narrative writing. From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice. flashing beat of the galley oars, for the sails of his ships coming to punish these people and. back now?" The Firelord took dragon form to fight Erreth-Akbe, but was defeated at last, at the cost of the forests and cities of Ilien, which he set afire as he fought..The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it.."That's Roke Knoll, lad," the weatherworker said to Dragonfly, who stood beside him at the rail..trickle of blood came through..touching the beasts and healing them.
