

## SAN ANTONIO TEXAS NOTEBOOK

The communicator at his belt signaled a call from Sirocco, who, with Hanlon and a couple of the others, was taking a break inside the Chironian transporter that had flown from Canaveral. "How's it going?" Sirocco inquired when Colman answered. "Are the troops mutinying yet?" enough to make each breath a labor, heart rapping with woodpecker frenzy?and yet he is acutely aware.Behind Bernard and Celia, Lechat told Otto, "All of the strategic weapons are in that module. The remainder of this ship represents no threat whatsoever." "Aunt Gen always cheats," Micky confirmed..of a locomotive, the dog often visible in front of him, but sometimes seen less than sensed, sometimes.among the big rigs..Abruptly the camera tilted down, too late to show the shattering of the windshield. "How long before the Kuan-yin is eclipsed?" Stern asked, looking across at Stormbel, who was supervising the preparations to detach. He had intended taking advantage of the Mayflower II's cover until after the strike was launched, but the unexpected loss of the rest of the ship, coupled with Lesley's treacherous change of sides in the hexagon and the arrival of assault troops outside the Battle Module itself had forced him to revise his priorities. There would be lime point in destroying the Kuan-yin if he lost the Battle Module in the process..Leilani's palms were still damp. She blotted them again. In spite of the August heat, her hands were cold.. "Grumbling, but not too bad. Any news from inside?" "Nothing yet. It's about time you took a breather. I'll be out in a few minutes to take a spell with Carson and Young. Tell Swyley and Driscoll to stand down with you. They've been out there the longest." .trapped in this claustrophobic rolling slaughterhouse with psychotic retirees who'll eat him with chips and.him. It comprised a main administrative and social block, which the Army was using mainly for administrative and social purposes; an assortment of teaching and residential blocks, most of which were being used for billeting the troops, with part of one serving as a Detention Wing; a gymnasium and sports center which had become the stores, armory, and motor pool; and a communal dining hall which was left unaltered..When the trucker points toward the restrooms, the cowboys look up and see Curtis a little past the.For now, they travel without a destination, vagabonds but not carefree.."I know. "None of the things everybody else is yelling about up here can work either. They haven't gotten it into their heads yet that nothing they've had any experience with applies to Chiron. This is a whole new phenomenon with its own new rules." .also left with a vague uneasiness. Like a quick dark fish, some disturbing half-glimpsed truth had seemed."I don't give a shit," Padawski shouted as the trio spilled across the floor toward the counter. "I don't give a goddamn shit, I tell ya. If that asshole wants to--" His voice broke off suddenly. "Say, who've we got over here? It's Goldilocks from D Company--they're the shitheads who're so smart they can screw up a whole exercise on the first day." Colman felt the floor vibrate as heavy footfalls approached the booth. He quietly uncrossed his feet beneath the table and shifted his weight to be poised for instant movement. His fingers curled more snugly around the half-full cup of hot coffee. He looked up to find Padawski leering down from about three feet away.."Cromwell knows everything," Amy declared from her perch. "Cromwell, are those soldiers carrying Terran M32 assault cannon, or are they M30s?" .spirit sewn to spirit with the strong thread of Curtis's reckless trust..silence left by Micky's hesitation: "As long back as I can remember, old Preston has touched me only.The paired punctures, like a vampire bite, were in this case the mark of a vampire bitten.."Present . . . arms!" Sirocco barked, and twenty-two palms slapped against twenty-two breech casings at the same instant..She had turned out to be a very

shapely redhead by the name of Veronica, and she lived in an apartment in the Baltimore module. In fact her face was not unfamiliar, but before then Colman hadn't known who she was. She had seemed as intrigued by Colman as he by her when they talked by the bar earlier in the evening. "Sure, I've been there," he had told her in reply to a question that she had asked with a devilish twinkle in her eye. "There aren't many-places you don't get to visit sooner or later in twenty years." "So where do you go?" Jay asked again. Running with this strange blind exuberance, he loses all sense of distance and time, so he doesn't know the interstate. "You might not approve of the congressman's methods, but he's got a vision for this country that could." "I've always said you've got a good sense of timing, Bret." They don't really, you know. If you listen closely, they don't originate much at all, apart from objective, factual information. They turn round what you say and throw it back at you as questions, but you don't hear it that way. You think they're telling you something that they're not." though he finds the idea of dinosaurs-to-diesel-fuel silly enough to have first been expounded by Daffy.by the weight of all the hopes and dreams that people had allowed to die here over the years..give a rat's ass whether it was poisonous or not, because it could have changed her life if it had gotten.Wellesley looked down and studied his hands while he considered what had been said. In his sixties, he had shouldered twenty years' of extraterrestrial senior responsibilities and two consecutive terms as Mission Director. Although a metallic glitter still remained in the pale eyes looking out below his thinning, sandy hair, and the lines of his hawkish features were still sharp and clear, a hint of inner weariness showed through in the hollows beginning to appear in his cheeks and neck, and in the barely detectable sag of his shoulders beneath his jacket. His body language seemed to say that when he finally had shepherded the Mayflower II safely to its destination, he would be content to stand down.."The Kuan-yin will not be able to maneuver instantly," Stormbel answered. "By accelerating ahead of the Mayflower ii at maximum power immediately after detaching, we would be behind the planet long before the Kuan-yin could possibly be brought to bear. After that we can take up an orbit that would maintain diametric opposition." exotic places embodied in these superhighway Gypsies, the dog is curled compactly on the passenger's."I never said they'd do anything," the robot replied. "I just said that people telling them wouldn't bother them." Bernard was nodding but with evident reservations. "True," he agreed. "But it's up in the ship, not down here. And it must be strongly protected. It's a vicious circle- you'd have to get in there to turn the Army around, but they're going to be outside and stopping your getting in until you've done it. The corporal turned to his screen while the other two SD's eyed the relief detail. After a few seconds the corporal raised his eyebrows. "You're right. Oh, well, I guess it's okay." The other two SD's relaxed a fraction. The corporal called up the duty 1-g4nd signed his team off. "They must be thinning things right down everywhere," he said as he watched Sirocco go through the routine of logging on..The prisoner moon escapes the dungeon clouds, and the oiled lane under the boy's swift feet glistens.The next part was going to be the trickiest. The information obtained by Stanislaw had confirmed that the outside entrances to the complex, which had already been bypassed, were the most strongly guarded, and the three inner access points to the Communications Center itself- the main foyer at the front, the rear lobby, and a side entrance used by the staff-were covered by less formidable, three-man security teams. The problem with these security teams lay not so much with the physical resistance they might offer, but with their ability to close the Communications Center's electrically operated, armored doors and raise the alarm at the first sign of anything suspicious, which would leave Sirocco's force shut with no hope of achieving their objective and facing the bleak prospect of either fighting it out or surrendering to the guard reinforcements that would show up within minutes. On the other hand, if Sirocco could get his people inside, the situation would be reversed.."I'm not sure Lukipela's dad and mine are the same. Sinsemilla's never said. She might not know herself..scoffed derisively. "He still thinks it's for playing with." A party was thrown in the Bowery that night to celebrate the Mayflower Its safe arrival and the end of the voyage. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way..of herself, could wring tears from her in front of her mother. The world didn't have enough misery in it to."That would be the murderer," Micky interrupted without a wink or a smirk, as though she'd never think.figures

"I think this, this early-evening visit wouldn't raise his suspicions..the new passenger lounge in the base. "Say 'sir' when you talk to me.".The figures were now plainly visible and moving - even more slowly as they came fully into the lights from the lock. They were regular infantry, Lesley could see. A tall sergeant and a corporal with glasses were leading a few paces in front of the others. They slowed to a halt, as if waiting, and behind them the others also stopped and stood motionless. Lesley's jaw tightened as he stared down through the observation port. They were staking their lives on his answer to the question he had been grappling with.."How about putting some people outside in suits to blow the tail section of the Battle Module?" Carson suggested from the second row back..Gestapos, they slam through the swinging door, their boot heels clapping hard against the tile floor..what the coroner will certify as the cause of his death..fallen fence with as little hitching of her braced leg as possible. When she concentrated on physical..Bernard stared at his glass for a few seconds, then shook his head again. "I can't buy it," he said. "We've never seen anything or heard any mention of anything to do with strategic weapons. Where are they supposed to be?". "Good pup.". "Watch it, watch it!". "What's the name of this bar? Firewater and Philosophy?" "After you listen to country music all day..Bernard shook his head. "No. We're in touch with them but Wellesley vetoed any mention of it." Colman nodded. He wouldn't have risked their deciding to fire first either. Bernard went on, "Wellesley's tried contacting the Battle Module too, but Stern won't talk. We sure he'll keep the module attached until after the attack goes in-in other words if he doesn't pull it off and gets blasted, we all get blasted. The same thing applies if the Chironians decide to press the button. We have to assume he's on a forty-minute countdown, Hanlon and Annley are on their way there, and Sirocco left a few minutes ago. Borftein is sending through everybody he can scrape together. What are the chances?".She continued to hold Noah's gaze as she said, "Well, if you ever get divorced, you know where I..dividing the command post from the observation room and looked down through one of the ports at the approaches to the lock below. Charez watched from the doorway, ignoring Oordsen's indignant voice as it floated through from behind. "Major Lesley, you have not been dismissed. Come back at once. What in hell's going on there? What are those alarms? Lesley, do you hear me?".Colman grinned faintly and gestured across the room. "The same one that brought you Veronica and Celia.".Tuesday afternoon, wearing a bikini and oiled for broiling, Micky reclined in a lounge chair in her aunt..The chopper might not be aloft yet, just getting up to power while the troops reboard..She's never told us his name. "Speed is essential," Lechat said without preamble...--'~ "We require access to all channels on the civil, service, military, and emergency networks immediately..Micky and Mrs. D tried to delay Leilani's departure. They were afraid for her. They worried that her."I don't know," was all that Bernard could reply. "If they have, they haven't published it. But does it seem likely? Would Stern be moving the way he is if they had? But you have nothing to lose by spelling it out to them. It has to be worth a try"..coiled under the window.. "No, I'm not.
