Happiness could grow out of unspeakable tragedy with such vigor that it produced dazzling blooms and lush green bracts. This insight served, for Celestina, as a primary inspiration for her painting and as proof of the grace granted in this world that we might perceive and be sustained by the promise of an ultimate joy to come. Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said. The wink startled and baffled Edom. Oddly, he thought of the mysterious, disembodied, and eternally unwinking eye in the floating pinnacle of the pyramid that was on the back of any one-dollar bill. Her life was so blessed that she could have dealt with a horde of locusts, let alone a few mosquitoes. A forgetful client had left the bumbershoot in the office six months ago. Otherwise, Nolly wouldn't have had any umbrella at all. He hadn't intended to enter the gallery. No one in his usual circles would attend this show, unless in such a state of chemically altered consciousness that they wouldn't be able to recall the event in the morning, so he wasn't likely to be recognized or remembered. Yet it seemed unwise to risk being identified as a reception attendee if Celestina White's little Bartholomew and maybe the artist herself were murdered later. The police, in their customary paranoia, might suspect a link between this affair and the killings, which would motivate them to seek out and. His inner turmoil boiled ever more fiercely, and the external evidence of it grew more obvious. In the cool air of the fading afternoon, he perspired as profusely as a man already being strapped into an electric chair; it streamed, gushed. He shook, shook, and he was half convinced that he could hear his bones rattling together like the shells of hard-boiled eggs in a rolling cook pot. If he killed Bartholomew and got away clean, as he expected that he would, then he could subsequently return everything in the van to the apartment. He was just being prudent by planning for his future, because the future was, after all, the only place he lived. The decision had already been made that Grace would move in with Celestina and then following the wedding with Celestina and Wally. In Spruce Hills, she had dear friends whom she would miss, but there was nothing else in Oregon to draw her back, other than the narrow plot beside Harrison, where she expected eventually to be buried. The parsonage fire had destroyed all her personal effects and every family treasure from Celestina's grade-school spelling-bee medals to the last precious photograph. She wanted only to be close to her one remaining daughter and her granddaughter, to be part of the new life that they would build with Wally Lipscomb. He hadn't killed this one, of course. A traffic accident. Wasn't that what Vanadium had said? Ten months ago, following tendon surgery for a leg injury, Seraphim had been an outpatient at the rehab hospital where Junior worked. She was scheduled for therapy three days a week. Instead of gaping at her as though she had been possessed by an inarticulate demon, Wally urgently fumbled a small box out of his jacket pocket and blurted, "Will you marry me?". Paul realized that the kitchen had fallen silent, that the women had turned to the two children and now stood as motionless as figures in a waxworks tableau. He opened the solid doors on the bottom of the breakfront, did not find what he was looking for, checked in the sideboard next, and there it was, a small liquor supply. Scotch, gin, vodka. He selected a full bottle of vodka. surreptitiously with Junior. He was accustomed to being an object of desire. This night, however, the only lady he cared about was San Francisco herself, and he wanted to be alone with her. Orange firelight bloomed in the living room below, a wave of heat washed over Paul, and immediately behind the heat came greasy masses of roiling black smoke, drawn to the stairwell as to a flue. "I think we could wind up as crazy as he is, if we tried long enough to puzzle out his twisted logic." Standing near the foot of the bed in a shapeless blue suit, Vanadium might have been the work of an eccentric artist who had carved a man out of Spam and dressed the meaty sculpture in thrift-shop threads. On the afternoon of November ninth, when Paul and Barty were with her, reminiscing, and Angel was in the kitchen, getting drinks for them, his mother gasped and stiffened. Breathless, she paled past chalk, and when she could breathe and speak again, she said, "Get Angel now. No time to bring the others." Standing over the body, he squeezed off the last three shots. Finished, he detested guns more than ever. PERRI'S POLIO-WHITTLED body did not test the strength of her pallbearers. The minister prayed for her soul, her friends mourned her loss, and the earth received her. A deep storm of silence, anti-thunder, the house fully drenched in a muffling rain of soundlessness. I. In the Dark Time. In his apartment once more, enjoying a cognac and a handful of pistachios as Monday changed to Tuesday, he decided that he should make preparations for the possibility that he might one day leave incriminating evidence in spite of his precautions. He ought to convert a portion of his assets into easily portable and anonymous wealth, like gold coins and diamonds. Establishing two or three alternate identities, with documentation, also would be wise. After taking a minute to steel himself, Junior squatted next to the dead detective. The cop had unzipped the top of her jogging suit and pulled up the roomy T-shirt. It's been a joy to me to go back to Earthsea and find it still there, entirely familiar, and yet changed and still changing. What I thought was going to happen isn't what's happening, people aren't who-or what-I thought they were, and I lose my way on islands I thought I knew by heart. Indeed, subconsciously, she had known that Nella was gone since receiving the call at 4:15 this morning. When the old woman had finished what she needed to say, the silence on the line had been eerily perfect, without one crackle of static or electronic murmur, unlike anything Celestina had ever heard on a telephone before. So Barty and Tom just happened to be chatting about a quantum physicist they had seen on a television program, a documentary about the uncanny resonance between the belief in a created universe and some recent discoveries in quantum mechanics and molecular biology. The physicist claimed that a handful of his

colleagues, though by no means the majority, believed that with a deepening understanding of the quantum level of reality, there would in time be a surprising rapprochement between science and faith..Behind her, he said, "And is that my gray cardigan? What did you do to my cardigan?" Three times, Mary vanished, and three times she reappeared, before she led the bamboozled Koko to her mother and father. "Neat, huh?". The sound made by the dropping corpse indicated that cushioning trash lined the bottom of the bin, and also that it was no more than half full. This improved chances that Neddy wouldn't be discovered until a dump truck tumbled him into a landfill-and even then perhaps no eyes would alight upon him again except those of hungry rats..Regrettably, he had no choice but to conclude that she hadn't made up her mind whether to keep the baby or to seek out an illegal abortion without Junior's approval. She had been thinking about scraping his child out of her womb without even telling him..The diminutive mortician spoke a few comforting words instead of commenting on the dental history of the deceased, and when he put a consoling hand on Jacob's shoulder, Jacob cringed from his touch..Among these people was an old man whom they called, among themselves, the Changer. He showed Otter a few spells of illusion; and when the boy was fifteen or so, the old man took him out into the fields by Serrenen to show him the one spell of true change he knew. "First let's see you turn that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy to the boy that the old man took alarm. Otter had to beg and wheedle him for any further teaching and finally to promise him, swearing on his own true and secret name, that if he learned the Changer's great spell he would never use it but to save a life, his own or another's..A blood test might prove that Junior was the father. Accusations might sooner or later be made against him by bitter and hate-filled members of her family, perhaps not even with the hope of sending him to prison, but solely for the purpose of getting their hands on a sizable part of his fortune, in the form of child support..Instead of engaging in the confrontation for which he had been pressing ever since his first visit, Vanadium surprised Junior by breaking eye contact, turning from the bed, and crossing the room to the door..In the end, the reason for the walking was the walking itself. Walking gave him something to do, a needed purpose. Motion equaled meaning. Movement became a medicine for melancholy, a preventive for madness.."Indeed, you did," said Magusson. "And I dismissed him as a well intentioned crusader, a holy fool. Looks like you had a better take on him than I did, Mr. Cain.".Tears burst from Junior, stinging torrents, a salt sea of grief that blurred his vision and bathed his face in brine. "Get out of here, you disgusting, sick son of a bitch," he demanded, his voice simultaneously shaking with sorrow and twisted by righteous anger. "Get out of here now, get out!".were uniformly negative, frequently hilarious, but never as succinct and violent as Sklent's..Finished, Joshua excused himself and went down the hall to his office. He was gone perhaps five minutes, and when he returned, he sent Barty off to the waiting room, where the receptionist kept a jar of lemon- and orange-flavored hard candies. "A few of them have your name on 'em, Bartholomew.". "Let's roll 'em. out," Paul said, and he returned to the station wagon to ride shotgun beside Agnes..He swept the immediate area with the flashlight, and shadows spun with shadows, waltzing spirits in the ballroom of the night..He was confused initially, frowning at the heart monitor and at the IV rack that loomed over him. When his eyes met Celestina's, his gaze clarified, and the smile that he found for her brought as much light into her heart as the diamond ring he had slipped onto her finger so few hours before..No turning back. In the fuming blackness, they would become disoriented in seconds, fall, and suffocate as surely as they would burn. Besides, the open window, providing draft, would draw the fire rapidly down the hallway at their backs..Zedd taught in this world where dishonesty is the currency of social acceptance and financial success, you must practice some deceit to get along in life, but you must never lie to yourself, or you are left with no one to trust..O foolish writer. Now moves. Even in storytime, dreamtime, once-upon-a time, now isn't then..They could not have been more solemn or more respectful if Naomi's corpse--stitched back together, pumped full of embalming fluid, painted with pancake makeup, dressed in white, with her cold hands clasping a Bible to her breast-had been reposing in a casket in this very room, surrounded by flowers and awaiting the arrival of mourners. They were all polite, soft-spoken, sad-eyed, oozing unctuous concern--and so full of feverish calculation that Junior wouldn't have been surprised if they had set off the ceiling-mounted fire sprinklers..Celestina threw down the weapon even before she turned, and as two cops entered the room, she cried, "He's getting away!". "I believe I'll just wait here until Mr. Cain wakes," Vanadium said. "I've nothing more pressing to do.". "Maybe he could if he was able to lift it, but I couldn't throw a pig or an Oreo or anything else into any other place. It's just not something I know how to do.". "No pie!" Agnes agreed. She parenthesized his head with her hands and punctuated his sweet face with kisses.."Shape-taking?". "Would you like a little tea and a piece of crumb cake?" Grace asked as smoothly as if, in *The Big Book of Etiquette for Ministers' Wives*, this were the preferred response to the announcement of a startling career change.."Be quiet, sugarpie," she said, crossing the bedroom to the door, which stood only slightly ajar..During the past three years, he'd suffered much because of these sisters, including most recently the humiliation in the Dumpster with the dead musician, Celestina's pencil-necked friend with a propensity for postmortem licking. The memory of that horror flared so vividly--every grotesque detail condensed into one intense and devastating flash of recollection--that Junior's bladder suddenly felt swollen and full, although he had taken a long satisfying leak in an alleyway across the street from the restaurant at which the postcard-painting poseur had enjoyed a leisurely dinner with Ichabod..As she commented on each masterpiece, Frieda grew steadily less coherent. She had drunk a few cocktails, the better part of a bottle of Cabernet Sauvignon, and two after-dinner brandies..While the doctor proceeded with his evening rounds, the nurse remained with Junior until it was clear that the tranquilizer had calmed him and that he was no longer in danger of succumbing to another bout of hemorrhagic vomiting..As though the blush were transmitted by a virus, Junior caught the primrose-pink contagion from the pianist..After the stupid bastards read a newspaper or smoked a few cigarettes, they finally broke down the door. Satisfyingly dramatic: the crack of splintering wood, the crash..Furrowing

her brow and narrowing her eyes as though prepared to scold him, she slowly lowered her face to his, until their noses were touching, and she whispered, "Because it's more fun if it's secret." When pale light came to her eyes again, she heard the paramedic and the cop talking anxiously as they worked on her, but she couldn't understand their words. They seemed to be speaking not just a foreign tongue but an ancient language unheard on earth for a thousand years. He already had the pistol he had taken from Frieda Bliss's collection, but it didn't come with a sound-suppressor. He was preparing for all contingencies. Focus. Dressed entirely in a shade of pink that darkened to rouge when wet, Angel squealed and deserted Barty. Spotted-streaked-splashed, with false tears on her cheeks, with a darkly glimmering crown of rain jewels in her hair, she raced up the steps as though she were a princess abandoned by her coachman, and allowed herself to be scooped into her grandmother's arms. "You're better at concentrative meditation without seed than anyone I've ever known, better than me. That's why you, especially, should never undertake a long session unsupervised," Chicane scolded. "At the very least, the very least, you should use your electronic meditation timer. I don't see it here, do I?" The vending machines were designed to accept quarters, not to eject them. They didn't make change. Mechanically, this barrage wasn't possible. Everyone agreed, and the order was placed when their waiter brought appetizers: crab cakes for Nolly, scampi for Kathleen, and calamari for Tom. His alcohol-soured breath washed over Agnes as he asked, "How's Bartholomew doing, is he okay, is the little guy in good health?" Sparky Vox-with less training in theology and philosophy than his guest, but with a spiritual insight that any overeducated Jesuit would have to admire, even if grudgingly-had settled Vanadium's uneasy conscience. "The problem with movies and books is they make evil look glamorous, exciting, when it's no such thing. It's boring and it's depressing and it's stupid. Criminals are all after cheap thrills and easy money, and when they get them, all they want is more of the same, over and over. They're shallow, empty, boring people who couldn't give you five minutes of interesting conversation if you had the piss-poor luck to be at a party full of them. Maybe some can be monkey-clever some of the time, but they aren't hardly ever smart. God must surely want us to laugh at these fools, because if we don't laugh at 'em, then one way or another, we give 'em respect. If you don't mock a bastard like Cain, if you fear him too much or even if you just look at him in an all-solemn sort of way, then you're paying him more respect than I ever intend to. Another glass of wine?" He snatched up the wine list before she could look at it. "If you're paying, then I'm ordering whatever costs the most, regardless of what it tastes like." A spirit-shredding bleakness clawed at her, but she couldn't permit it to leave her in tatters. If she traded hope for despair, as her brothers had done, Bartholomew would be finished before he'd begun. She owed him optimism, lessons in the joy of life. If there had been footsteps, they had fallen silent the moment Junior froze to listen for them. Even over the hard drumming of his heart, he would have heard any noise. The pillowy fog seemed to smother sound in the alleyway more effectively than ever. He tucked his left arm tight against his side and threw himself against the door. The obstructing furniture was heavy, but it moved an inch. If it would give one inch, it would give two, so it wasn't immovable, and he was already as good as in there. He rode up to the third of five floors in the service elevator, which other tenants were permitted to use only when moving in or moving out, or when taking delivery of large items of furniture. Another elevator, at the front of the building, was too public to suit his purposes. Angel, however, focused on a point in the air above the table. Faint furrows marked her brow for a moment, but then the frown gave way to a smile. Rearview mirror was not hung with one of those tacky decorative deodorizers. The seats, regularly treated with leather soap, were softer and more supple than they had been when the car had shipped out of. The presence of the brochure disturbed Vanadium also because he assumed that after being dead-ended by Nolly, Cain had subsequently discovered that Celestina had taken custody of the baby to raise it as her own. For some reason, the nine-toed wonder originally believed the child was a boy, but if he'd tracked down Celestina, he now knew the truth. He had bribed a parking attendant to keep his Mercedes at the curb in a valet zone, in front of a nearby restaurant, so it would be instantly available when needed. He could also leave the car and follow Celestina on foot if she chose to stroll home from here. Before he taught himself to read books, he also taught himself numbers, and then how to read a clock. The significance of time had a more profound impact on him than Agnes could understand, perhaps because acquiring an awareness of the infinite nature of the universe and the finite nature of each human life-and fully understanding the implications of this knowledge-takes most of us till early adulthood if not later, whereas for Barty, the vast glories of the universe and the comparatively humble nature of human existence were recognized, contemplated, and absorbed in a matter of weeks. Face looked familiar, and he sensed that he had seen it before in a disquieting context, although the man's identity eluded him. Agnes winced. Already, another contraction. Mild but so soon after the last. She clasped her hands around her immense belly and took slow, deep breaths until the pain passed. When the highway passed through a sunless ravine, he had broken into a sour sweat at the sight of the bloody pulsing reflections of the revolving rooftop beacons on the bracketing cut-shale walls. Now and then, the siren shrieked to clear traffic ahead, and he felt the urge to scream with it, to let loose a wail of terror and anguish and confusion and loss. "Apple juice, lime Jell-O, and four soda crackers," said the detective. "If you don't have enough of a conscience to make you confess, Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?" Kennedy, whose portraits hung side by side, the girl revealed to their mom and dad what had been done to her and also what, in her despair. Junior was pleasantly surprised by his flexibility and by his audacity. He was, indeed, a new man, a daring adventurer, and by the day he grew more formidable. In the instant that Junior had shoved Naomi into the rotted railing, he had foreseen this visit from Rudy, Sheena, and Kaitlin. He'd known he could pretend to be offended at the state's offer to put a price on his loss, could feign revulsion, could resist convincingly--until gradually, after grueling days or weeks, he reluctantly allowed the indefatigable. Knew Phimie died in childbirth, not an

accident, and Max's instincts told him rape. I explained to your dad why Cain was the man. I wanted whatever information he might have. But I suppose ... sitting there, looking at my face, he decided that Cain is indeed the biggest hornet's nest ever, and he didn't want to put his daughter and granddaughter at greater risk than necessary." To his surprise, when Naomi expressed an interest in romance, Junior was a bull again. He would have thought he had left his best stuff at Reverend Harrison White's parsonage..Tom didn't understand Edom's comment or the smiles that it drew, but otherwise, he was impressed by the ease with which these people absorbed what he had said and by the imagination with which they began to expand upon his speculation. It was almost as though they had long known the shape of what he'd told them and that he was only filling in a few confirming details.."There's lots of places where I don't have bad eyes at all. And then lots of places where I have it worse or don't have it as bad, but still have it some."The blonde was coming on to him, just as a score of other women had done since his arrival, so Junior tried to balance seduction with information gathering. Putting his hand over the hand with which she was gently massaging his thigh, he said, "I knew her brother in Nam. Then I got wounded, shipped out, lost touch. Like to find him."The walk-in closet, which Vanadium next explored, contained fewer clothes than he expected. Only half the rod space was being used. A lot of empty hangers rang softly, eerily against one another as he conducted a casual examination of Cain's wardrobe..Now, twenty-four hours later, when Sparky answered his telephone and heard Tom Vanadium, he said, "You looking for a little company? I've got another bottle of Merlot where the last one came from."because the car was either struck again by the pickup or hit by other traffic or perhaps it collided with a parked vehicle, but whatever the cause, the breath was knocked out of her, and her screams became ragged gasps.."When you didn't answer the doorbell, man, I just knew what must have happened," Chicane told Junior..Junior was at critical depth. The psychological pressure was at least five thousand pounds per square inch and growing by the second. Implosion imminent..With remarkably little splash, the sedan eased into the water. Briefly it floated, bobbling near shore, tipped forward by the weight of the engine. As the lake flooded in through the floor vents, the vehicle settled steadily-then sank rapidly when water reached the two partially open windows..He kept a few paperbacks of Caesar Zedd's work in the bathroom, so that time spent on the john wouldn't be wasted. Some or, his deepest insights into the human condition and his best ideas for self-improvement had come in this place, where Zedd's luminous words seemed to shine a brighter light into his mind upon rereading..He assumed that she hadn't phoned the police to make a formal report. No need to go out of her way to slander Junior when Thomas Vanadium had been prowling the hospital at all hours of the day and night, ready to lend an ear to any falsehood about him, as long as it made him appear to be a sleazeball and a wife killer..Through the door came the sound of running water splashing in a sink. Neddy washing his hands.."I'm sure you would be, yes, but I'm afraid I don't have the patience to teach, I'm a performer, not an instructor. I suppose I could give you the name of a good teacher."When Nolly sighed and frowned, his lumpish face seemed in danger of sliding off his skull, like oatmeal oozing off a spoon. "Mr. Cain, much as I regret it, I'm afraid I'm going to have to return half of the retainer you gave me."Suddenly she realized-Good Lord!-that someone else had a had inside her, up the very center of her, massaging her uterus in the same lazy pattern as that made by the piece of melting ice on her belly..LATE TUESDAY AFTERNOON in Bright Beach, as a darker blue and iridescent tide rolled across the sky, seagulls rowed toward their safe harbors, and on the land below, shadows that had been upright at work all day now stretched out, recumbent, preparing for the night..the social worker and her family. Husband, wife, daughter, son. The little girl smiled shyly through braces. The boy was impish..He had been walking ever since, two and a half years, with brief respites in Bright Beach..If the state police did get involved, and even if they found evidence that the accident was staged, they would most likely point the finger of blame at the man for whom Victoria had been preparing dinner..With the successful consumption of the burger and with the addition of the third Sklent to his collection, Junior felt more upbeat than he'd been in quite a while. Contributing to his better mood was the fact that he hadn't heard the phantom singer in longer than three months, since the library in July..Harrison was a Baptist, Vanadium a Catholic, and although they approached the same faith from different angles, they weren't coming to it from different planets, which was the feeling Vanadium had been left with following their conversation. It was true that Enoch Cain could never be brought successfully to trial for the rape of Phimie, subsequent to her death and in the absence of her testimony. And it was also uncomfortably true that exploring the possibility that Cain was the rapist would tear open the wounds in the hearts of everyone in the White family, to no useful effect. Nevertheless, to rely on divine justice alone seemed naive, if not morally questionable.."Could you undo the spell you put on her?"He pressed his right ear to the door, held his breath, heard nothing, and addressed the top lock first. Quietly, he slid the thin pick of the lock-release gun into the key channel, under the pin tumblers..With her brothers, she adjourned to the waiting room, where the three of them sat drinking vending-machine coffee, black, from paper cups..With the uniformed troopers was a stocky, late-fortyish, brush-cut man in black slacks and a gray herringbone sports jacket. His face was almost pan flat, his first chin weak, his second chin stronger than the first, and his function unknown to Junior. He would have been the least likely man to be noticed in a ten-thousand-man convention of nonentities, if not for the port-wine birthmark that surrounded his right eye, darkening most of the bridge of his nose, brightening half his forehead, and returning around the eye to stain the upper portion of his cheek..After mentally reviewing what he must say, after working up a nervous edge, he dialed the SFPD emergency number..Inevitably, man of the arts that he was, his slouching brought him to several galleries. In the window of the fourth, not one of his favorite establishments, he saw an eight-by-ten photograph of Seraphim White.."Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling."This show was hopeless, disastrous, stupid, foolish, painful, lovely, wonderful, glorious, sweet..Those ominous words again, turning through his memory, reel to reel. This time he actually heard them spoken. The voice commanded minded attention with a deeper timbre

and crisper diction than his own..Barty never cried. In the hospital neonatal unit, he'd been a marvel to the nurses, because when the other newborns were squalling in chorus, Barty had been unfailingly serene..Junior put the money on the desk. "Then get into the records of Family Services..".A sense of fellowship in extraordinary times drew everyone closer, to hug, to touch, to share the wonder. For a long moment, even in the symphony of the storm, in spite of all the plink-tink-hiss-plop-rattle that arose from every rain-beaten work of man and nature, they seemed to stand here in a hush as deep as Tom had ever heard..Although she already knew that the answer could not be cheerily optimistic, Celestina wondered, "Is the baby likely to be . . . normal?".He smiled and shrugged. "I used to be a fisher of men. Now I hunt them. One in particular..".He was surprised they had come so soon, less than twenty-four hours after the tragedy. This was especially unusual, considering that a homicide detective was obsessed with the idea that rotting wood, alone, was not responsible for Naomi's death..He kept the house, for it was a shrine to his life with Perri. He returned to it from time to time, to refresh his spirit..At last, as the sun slowly set, he arrived at the highest of the high redoubts, beyond which the branches were too young and too weak to support him farther. Against a sky red enough to delight the most sullen sailors, he rose and stood in a final crook of limbs, pressing his left hand against a balancing branch, right hand planted cockily on his hip, lord of his domain, having kicked off the trammels of darkness and fashioned from them a ladder..And God has four hundred billion billion fingers, and He plays a really hot version of "Hawaiian Holiday..To the alleyway again. Not through the clodhopper-cluttered gallery this time. Around the block at a brisk walk.
